### Features:

- ❖ This product is designed to be compatible with Mars Air Systems models. See table for model selection chart
- ❖ Standard color for LPV2/LPN2 and STD2/NH2 is Obsidian Black (OB) and for other series is Titanium Silver (TS)
- ❖ Up to 2 air curtain can be stacked on each other for taller entranceways. Center mounting brackets are factory installed for WM and BD series for easy installation.
- ❖ Vertical air curtains can be installed on both sides of wider entranceways for adequate protection
- ❖ Vertical stand-off pedestal is factory provided and shipped loose for right or left side field installation
- ❖ Safety steel mesh factory installed at nozzle to avoid accidental contact at discharge
- ❖ Modified intake screen with additional offset expanded metal factory installed to prevent accidental contact for WM and BD series
- ❖ Additional brackets for wheels and bearing locks factory installed for BD series
- ❖ Same end connection standard for Steam/Hot water heated models. Custom coil design offered for other configurations
- ❖ Remote mounted control panel is standard. Optional unit mounted control panel available
- ❖ Proudly Made in the USA

### Options and Accessories:

- ❖ Custom colors available (Obsidian Black, Titanium Silver, Pearl White and Stainless Steel)
- ❖ Custom coil design offered for other configurations. Specify orientation, call factory.
- ❖ Unit mounted control panel options available. Specify orientation, call factory.
- ❖ Optional air diffusers available for vertical mounted air curtains
